

Salina Bishwokarma

Final-year Computer Engineering student and MERN stack developer with hands-on internship experience shipping production-grade applications. Built a live mental health platform, a full-stack Payroll Management System, and a public regional web portal. Proficient in React, Next.js, TypeScript, Node.js, Java/Spring Boot, MySQL, and MongoDB.

Relevant Experience

- Full Stack Developer Intern | Digital Pathshala (Remote) Apr 2025 – Jul 2025
- Shipped Mindful — a production mental health wellness platform serving real users, built with React.js, TypeScript, and Express.js; implemented responsive UI, session management, and resource tools.
 - Architected and delivered RESTful APIs for dynamic content delivery and user management; maintained agile sprint cadence in a fully remote cross-functional team.
 - Collaborated on UI/UX decisions using Figma wireframes, ensuring accessible and intuitive interface design across all device sizes.

Projects

- Payroll Management System Nov 2025 – Feb 2026
- React.js · JavaScript · Spring Boot · MySQL · REST API
- Engineered a full-stack HR payroll platform as Final Year Project — automated salary calculations, tax deductions, attendance tracking, and employee profile management with role-based access control.
 - Designed a normalized MySQL schema handling multi-department payroll logic and integrated Spring Boot REST APIs consumed by a responsive React.js dashboard.

- Know Sudurpashchim Better 2025
- React.js · Tailwind CSS · Vercel
- Designed and launched a public-facing informational portal for Nepal's Sudurpashchim Province covering Places, Culture, Region, and Travel Guide — deployed live on Vercel with mobile-first responsive UI.
 - Implemented clean component architecture in React with reusable UI sections, ensuring fast load times and smooth user navigation.

- Hostel Management System 2026
- React.js · Node.js · MongoDB
- Built a full-stack Minor Project automating room allocation, resident check-in/out, and administrative reporting — reduced manual tracking overhead with a clean dashboard interface.
 - Implemented CRUD operations with MongoDB and RESTful Node.js backend, enabling real-time room status updates and resident history tracking.

- Personal Portfolio 2025
- React · Tailwind CSS
- Designed and deployed a personal developer portfolio showcasing projects and skills — optimised for performance and clean UX.
 - Achieved clean, accessible design with Tailwind CSS utility classes and responsive layout for all screen sizes.

Skills

Frontend: HTML, CSS, JavaScript, TypeScript, React, Next.js, Tailwind CSS
Backend: Node.js, Express.js, Java, Spring Boot
Databases: MySQL, MongoDB
Tools: Git & GitHub, REST API Design, Figma, Docker (familiar)
Soft Skills: Public Speaking, Leadership, Problem-Solving

Education

National Academy of Science and Technology, Dhangadhi
B.E. Computer Engineering
Expected 2026

Achievements

2nd Prize — Girls in ICT Coding Workshop (2025)
Recognised for technical excellence among women in ICT at a regional competitive coding event.

Interests

Solving Real-World Problems
Passionate about finding problems in everyday life and building software solutions that create genuine impact.

Public Speaking & Community
Enjoy sharing knowledge, presenting ideas, and participating in tech community events and workshops.
